## FALL LEAF COLLECTION

Leaves are collected curbside in the fall of each year. Leaf collection typically begins around the second or third week of October and continues until about Thanksgiving. Weather dictates the start and end dates of this service. Residents are asked to rake leaves into the gutter line.

### **Keep the following in mind when bringing leaf piles to the curb.**

- Parked cars should be at least 6' from leaf piles
- Trash and recycle containers should be 6' from leaf piles

Please make sure that leaf piles are kept low so that children cannot be hidden from motorists' view and kept close to the curb so as not to interfere with traffic.

### **Debris/items to exclude from leaf piles that are placed at the curb for collection:**

- NO sticks, branches, glass clipping or yard waste
- NO pumpkins

## **Reminder: LARGE RUBBISH COLLECTION REQUEST REQUIREMENT**

**WHAT:** Residents MUST request large rubbish collection at least 24-hours in advance

**HOW:** Call 920-788-7740 ext. 1 and leave a message with your address and a request for large rubbish collection or make the request online:

[www.combinedlocks.org/large-rubbish/](http://www.combinedlocks.org/large-rubbish/)

- DETAILS:**
- 1) Items must be curbside by 6:30am on the day of collection and no earlier than noon the day before collection

## **REMEMBER...ONLY RAIN DOWN THE DRAIN**

To keep storm water leaving your home or workplace clean, follow these simple guidelines:

- Use pesticides and fertilizers sparingly.
- Repair auto leaks.
- Dispose of household hazardous waste, used auto fluids (antifreeze, oil, etc.), and batteries at designated collection locations.
- Use a commercial car wash or wash your car on a lawn or unpaved surface.
- Clean up after your pet.
- Sweep up yard debris rather than hosing down areas. Compost or recycle yard waste when possible.
- Clean paint brushes in a sink, not outdoors. Properly dispose of excess paints through a household hazardous waste collection program.
- Sweep up and properly dispose of construction debris like concrete and mortar.

## **GENERAL REMINDERS**

**Terrace Trees:** It is a good idea to water trees regularly in the fall – especially newly planted trees.

**Archery Range:** The Archery Range in Memorial Park is open for public use during normal park hours. Normal park hours are daily from 7:00am to 11:00pm. If you are the last person to leave – turn off the lights, please! This is important in the fall, especially after the leaves start to drop.

**Mail Boxes:** For those mailboxes at curbside, please make sure that the front face of your mailbox is located behind the back of curb.

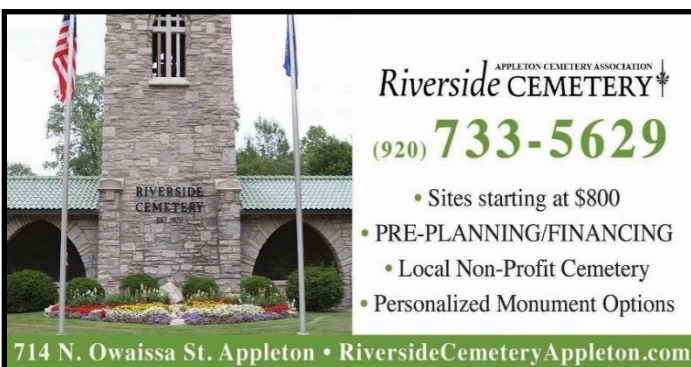

**Winter Parking Restrictions:** Winter parking restrictions begin December 1<sup>st</sup>.  
From December 1<sup>st</sup> through April 1<sup>st</sup>, parking on the street is prohibited from 2am to 6am.

## **REFUSE AND LARGE RUBBISH COLLECTION REMINDERS**

Please take care to place your green trash cart **at least four (4) feet away** from your blue recycling cart. The distance is needed to ensure that obstructions do not interfere with the tip-to-dump garbage and recycling collection systems.

**Sec. 8-3-3 Recycling Program and Recycling Containers** d) Recyclable material containers must be placed for collection by 6:30 a.m. on the day of collection, but not before 12:00p.m. of the day preceding the regularly scheduled collection.

**Sec 8-3-5 Garbage and Refuse Containers: Preparation for Collection** d) Refuse containers must be placed for collection by 6:30 a.m. on the day of collection, but not before 12:00p.m. of the day preceding the regularly scheduled collection.

## COMBINED LOCKS WATER UTILITY HYDRANT FLUSHING

The Combined Locks Water Department will begin semi-annual water main/hydrant flushing on Monday, September 19<sup>th</sup>, 2022. The flushing should be completed in one week, but may continue through Friday, September 30<sup>th</sup>, 2022 if needed.

The water main flushing will remove most of the natural minerals, such as iron, that are harmless but will discolor water. If you see our Public Works Department personnel working in your area, use little, or if possible, no water for ½ hour to ¾ of an hour to ensure that water has “settled down” - so that the

discoloration is not drawn into your water system.

If you do find discoloration in your system, stop using water for about ½ hour - then draw off the discolored water through the **cold-water faucet only**. Our best advice is for you to wait until after 4:00 p.m. before washing clothes to minimize potential discoloration.

Thank you for your cooperation. Combined Locks Water Utility

### About Fire Prevention Week

Since 1922, the NFPA has sponsored the public observance of Fire Prevention Week. In 1925, President Calvin Coolidge proclaimed Fire Prevention Week a national observance, making it the longest-running public health observance in our country. During Fire Prevention Week, children, adults, and teachers learn how to stay safe in case of a fire. Firefighters provide lifesaving public education in an effort to drastically decrease casualties caused by fires.

Fire Prevention Week is observed each year during the week of October 9th in commemoration of the Great Chicago Fire, which began on October 8, 1871, and caused devastating damage. This horrific conflagration killed more than 250 people, left 100,000 homeless, destroyed more than 17,400 structures, and burned more than 2,000 acres of land.
