PROJECT TYPE

Fence Shed Pool Electrical Plumbing Deck

Project description:	Estimated Cost

I understand that I am subject to all applicable codes, laws, statutes and ordinances, including those described on the reverse side of the last page of this form; am subject to any conditions of this permit; understand that the issuance of this permit creates no legal liability, express or implied, on the state or municipality; and certify that all the above information is accurate. If one acre or more of soil will be disturbed, I understand that this project is subject to Ch. NR 151 regarding additional erosion control and storm water management and the owner shall sign the statement on the back of the permit if not signing below. I expressly grant the building inspector, or the inspector's authorized agent, permission to enter the premises for which this permit is sought at all reasonable hours and for any proper purpose to inspect the work which is being done.

I vouch that I am or will be an owner-occupant of this dwelling for which I am applying for an erosion control or construction permit without a Dwelling Contractor Certification.

APPLICANT (Print:) _____ **Sign:** _____ **DATE** _____

This permit is issued pursuant to the following conditions. Failure to comply may result in suspension or revocation of this permit or other penalty

APPROVAL CONDITIONS

See attached for additional conditions of approval.

Summary of Pool Ordinances

Exempt Pools

- Wading pools are exempt from this ordinance as long as they meet the following guidelines
 - Maximum dimension of 15 feet.
 - Maximum water depth of 24 inches.
 - Can be readily disassembled for storage and reassembled to their original integrity

Permit required

- Incidental plumbing and electrical work require separate permits from the Village of Combined Locks and are subject to the provisions of their respective codes.

Construction requirements

- Every pool shall have a suitable draining method and in no case, shall waters from any pool be drained into the following:
 - Sanitary sewer system
 - Lands of adjacent property owners
 - Lands in the general vicinity

Site Plan to include setbacks and fence dimensions

Setbacks

- Pools shall be installed, constructed or placed only on rear or side lots.
- Three (3) feet from any lot line and 15 feet from any adjacent residence or garage.

Fence

- Requirement
 - Pools shall be protected by a fence.
 - Minimum height is 4 feet
 - Gate will be self-closing and self-latching and at least 30 inches above ground.
 - Maximum spacing between vertical members is 4.5 inches.
- Exception
 - Fence is not required if an appropriate deck surrounds the pool. This means limited/restricted access or pool walls a minimum of 4 feet high.
 - If a hard, lockable cover is installed, that can also be a sufficient substitute for a fence.
 - Portable Pools shall be drained or securely covered after each days use.

Miscellaneous items

- Life Saving Equipment shall be provided
- Filter System Required
- Dirt Bottom Prohibited

Sec 13-1-183

Swimming Pools

- a) **Definition.** A private or residential swimming pool is an outdoor structure containing a body of water in a receptacle or other container having a depth for water at any point greater than twenty-four (24) inches located above or below the surface of ground elevation, used or intended to be used solely by the owner, operator or lessee thereof and his/her family, and by friends invited to use it, and includes all structural facilities, appliances, and appurtenances, equipment and other items used and intended to be used for the operation and maintenance of a private or residential swimming pool.
- b) **Exempt Pools.** Storable children's swimming or wading pools, with a maximum dimension of fifteen (15) feet and a maximum water depth of twenty-four (24) inches, and which are so constructed that they may readily be disassembled for storage and reassembled to their original integrity, are exempt from the provisions of this Section.
- c) **Permit Required.**
 - 1) An application for a swimming pool building permit must be submitted in writing to the Building Inspector before work is commenced on the construction, installation or placement of private or residential swimming pools not exempted by these regulations. A building permit is also required for any alterations, additions, remodeling or other improvement to an existing pool. Plans, specifications and pertinent explanatory data should be submitted to the Building Inspector at the time of application.
 - 2) Incidental plumbing and/or electrical work shall be subject to the provision of the respective codes and require separate permits from the Village.
 - 3) The minimum building permit fee pursuant to the Village Building Code shall accompany such application.
- d) **Construction Requirements.** In addition to such other requirements as may be reasonably imposed by the Building Inspector, the Building Inspector shall not issue a permit for construction as provided for in Subsection (b), unless the following construction requirements are observed:
 - 1) All materials and methods for construction in the construction, alternation, addition, remodeling or other improvement and pool installation shall be in accord with all state regulations and codes and with any and all ordinances of the Village now in effect or hereafter enacted.
 - 2) All plumbing work shall be in accordance with all applicable ordinances of the Village and all state codes. Every private or residential swimming pool shall be provided with a suitable draining method, and in no case, shall waters from any pool be drained into the sanitary sewer system, onto lands of other property owners adjacent to that on which the pool is located or in the general vicinity
 - 3) All electrical installation, including lighting and heating but not limited thereto, which are provided for, installed and used in conjunction with a private swimming pool shall be in conformance with the state laws and Village ordinances regulating electrical installations.
- e) **Setbacks and Other Requirements.**
 - 1) All pools, to include exempted pool, shall be installed, constructed or placed on rear or side lots only, and only on a lot occupied by a principal building. No swimming pool shall be installed, constructed or placed on an otherwise vacant lot. A lot shall not be considered vacant if the owner owns the contiguous lot and said lot is occupied by a principal building.
 - 2) No part of any outdoor swimming pool shall be set nearer than three (3) feet from any lot line or fifteen (15) feet from any adjacent resident or garage or in the front setback area of any lot.
- f) **Fence.**
 - 1) **Requirement.** Outdoor swimming pools shall be protected by a fence, wall, building, enclosure or solid wall of durable material of which the pool itself may be constructed or any combination thereof. The artificial barrier shall be constructed so as to afford no handholds or footholds, of materials which are impenetrable by toddlers, at least four (4) feet in height so that a toddler cannot grasp its top by jumping or reaching. Any gate installed shall be provided with self-closing and self-latching devices which shall be on the inside of the gate at least thirty (30) inches above ground level. All fences shall be constructed so that there is no more than four and one-half (4 ½) inches of spacing between vertical members.

- 2) **Exception.** The pool enclosure may be omitted where a pool is installed above ground and has a raised deck around the entire pool perimeter with an attached enclosed railing or uncovered sidewalls a minimum of thirty-six (36) inches high, provided that a ladder or stairs access can be restricted.
 - 3) **Portable Pools.** Portable pools over twenty-four (24) inches in depth shall be fenced or shall be drained, or covered with a secured cover to prevent access into the pool, after each days' use so as to provide public safety.
-
- g) **Life Saving Equipment.** Lifesaving equipment shall be provided and shall consist of at least one (1) life pole ten (10) feet long and a Coast Guard approved ring buoy with a minimum outside diameter of twenty (20) inches (U.S.C.G. approval numbers 160.009 or 160.050) to which shall be attached three-sixteenths inch rope of a length at least equal to the greatest dimension of the swimming pool.
 - h) **Draining and Approval Thereof.** No private swimming pool shall be constructed so as to allow water therefrom to drain into any sanitary sewer or septic tank nor to overflow upon or cause damage to any adjoining property. Provisions may be made for draining the contents of any swimming pool into a storm sewer, but such installation shall be subject to prior approval by the Building Inspector.
 - i) **Filter System Required.** All private swimming pools within the meaning of this Chapter must have, in connection therewith, some filtration system to assure proper circulation of the water therein and maintenance of the proper bacterial quality thereof. Every private swimming pool which has a capacity of at least five hundred (500) cubic feet of water shall be equipped with a recirculating system which shall be capable of filtering and recirculating the entire volume content of the pool during a twelve (12) hour period.
 - j) **Dirt Bottoms Prohibited.** All swimming pools of a permanent nature shall have the side and bottom of a smooth finish, and no sand or dirt bottom shall be permitted.
